

Welcome to Your Remix Mini-Journal

Some ideas don't let go.

They linger, they loop, they ask to be seen from another angle.

This little kit is a way to explore just one idea—gently, playfully, and with curiosity.

You'll look at it three ways:

- *Stay True – Describe it just as it came*
- *Change the Medium – Visual? Audio? Poem?*
- *Flip the Perspective – New voice? Mood? Context?*

There are no rules here. Just a chance to notice what changes... and what stays the same.

Ready? Let's begin.

How to Use This Mini-Journal

This isn't a test—it's a creative invitation.

Choose one idea that keeps circling your mind. Then, use the next page to play with it three different ways. You don't need to be a writer, artist, or designer. Just curious.

You might stay close to the original. Or wander far from it. The goal isn't perfection—it's perspective.

Use a pen, a stylus, your imagination.

Fold the page in half. Scribble in the margins.

There's no wrong way to remix.
